Spendthrift Trust

Our **Specialized Copyrighted Trusts** are specially designed for those clients who have assets and things to protect, either now or in the future, and to protect themselves from the susceptibility to liability that goes along with ownership and success.

WHAT IS A TRUST?

Trusts are legal entities that can be used to transfer, hold, and manage property or assets. It is an ingenious entity empowering Trustees of the Trust to have and hold all control over property and assets. The terms and conditions of the Trust strictly define the form of the trust used and the needs of the people or entity it is created to serve.

History

Trusts have been used from antiquity and are legal in all countries of the world. Laws were written to accommodate Trusts and keep the integrity of the corpus sacred and beyond the reach of creditors. They are used for preserving estates for future generations, shielding assets from litigation, deferring taxes, managing assets and complimenting or replacing wills and minimizing or avoiding the complex legal estate system. Trusts are a time proven, legal, unique and valuable tool.

Legality of Trusts

Our **Copyrighted Trusts** are designed with consideration to the recognized works of Professor Austin Scott, author of the definitive law on trusts, titled "Scott on Trusts", and updated for compliance with the "Uniform Trust Code" and the "Restatement Third of Trusts". It was also written to be in compliance with the Internal Revenue Code. Changes in the laws have rendered certain old trust formats obsolete and the IRS considers some of them illegal and tax evasion tools.

WARNING! Only Licensed Attorneys are permitted to give legal advice, create and sell legal documents and practice law. Purchasing a trust from those outside the legal profession can mean you have bought a invalid document. Copyright Law is strict and purchasing a Copyright from those who are not authorized to sell it is illegal!

Masters Copyrights LLC
